CIRCULAIR 90™ PASSIVE AIR CARE REFILL, BLUE SPLASH

The Rubbermaid Commercial Products® CirculAir 90™ Blue Splash scent refill is engineered to deliver reliable air care performance with verified recyclability. This scent is a crisp, refreshing blend of lemon, sweet orange, and clean water notes with a soft floral finish. Made from a single material, the refill is Recyclable ready, no dismantling (EU, UK, NO, CH). Independently validated to meet key recycling system requirements and design guidelines in the EU, UK, NO, CH. The refill and dispenser feature a battery-free design for uninterrupted performance and 90 days or more of maintenance-free fragrance. Formulated without VOC propellants, the passive refill supports indoor air quality while reducing environmental impact compared to TCell. Each dispenser effectively covers mid-size washrooms with 3–4 stalls or fixtures, up to 6,000 cubic feet. Proven to deliver a stronger and more consistent fragrance experience than TCell, CirculAir 90 sets a new benchmark for air care innovation. Based on ISO compliant Life Cycle Assessment between CirculAir 90™ and T-cell Citrus Zest and Citrus Mix (refill). The LCA respects ISO 14040 and 14044 standards for public disclosure of results and considers all identifiable activities across the product life cycle (cradle-to-grave). The study has been peer reviewed by an independent expert.

FEATURES AND BENEFITS

- Recyclable. Designed in alignment with design-for-recycling principles. Made of a single material (PP). No dismantling needed
- Recyclability tested, verified, certified by RecyClass in EU (including UK, CH, NO)
- Can be disposed of in a plastic
